Ted Martin Joins MartinFed

Federal contracting industry veteran to serve as Executive Vice President of Federal Solutions

HUNTSVILLE, AL (May 15, 2023) – Ted Martin, a senior executive with more than 30 years of experience serving the defense, space, and intelligence markets, has joined MartinFed as Executive Vice President of Federal Solutions. Martin most recently served as Vice President in the Defense and Intelligence Business Unit of Parsons Federal Solutions, and previously held multiple executive leadership positions with COLSA Corporation, including Senior Vice President of Systems and Software Engineering.

“We are thrilled to add someone of Ted’s broad experience, business acumen, and leadership skills to the MartinFed team,” said David Mathis, President and CEO of MartinFed. “Ted’s stellar reputation and proven ability to provide valuable solutions to federal customers are second to none.”

Serving in senior leadership roles for small and large businesses, Martin possesses a vast professional network and a highly successful track record of growing businesses through the delivery of solutions to complex problems for federal customers. Throughout his distinguished career, he has provided customer-focused services and solutions in multiple technical disciplines, including systems engineering and integration, enterprise IT, cybersecurity, and engineering services. As a member of the company’s executive leadership team, Martin will focus on the development and execution of MartinFed’s aggressive growth strategy by converging capabilities into integrated solutions for federal customers.

“Ted will be instrumental in ensuring MartinFed’s solution delivery to our existing customers, while also seeking new opportunities and strategic alliances to further support the safety and security of our nation,” said Matthew Schmitz, Chief Growth Officer of MartinFed.

Martin earned a Bachelor’s in Computer Science from Troy University, as well as an Executive Master of Business Administration from Auburn University. He and his wife, Kristy, have one daughter, Mariah.

“Having been a part of the federal contracting industry for over 30 years, I’ve seen firsthand the impressive ways in which MartinFed invests in its people, community, and technical capabilities to advance the missions of its customers,” said Martin. “As the company continues to experience rapid growth, I’m thrilled to join their high-performing team and contribute to their ongoing success and commitment to excellence in serving its people, partners, and customers. For me and my family, this opportunity checks all the work/life fulfillment boxes, and we are excited and humbled to be a part of the exceptional MartinFed team.”
